

Activity Packs (25 Hours)

Give your job seekers the skills they need to find employment quicker

Our five unique Activity Packs focus on filling various skills gaps to give job seekers a better chance at finding employment.

It's **Fun**. It's **Engaging**. It's **Anytime, Anywhere Learning!**

Who would benefit from our packs

- Those having difficulties searching for employment
- Those lacking confidence or motivation
- Those needing better interview and communication skills
- Those who are apprehensive about starting or sustaining a job
- Those needing help with simple financial matters, such as sticking to a budget

Our course covers

- Mastering the job hunting process and sustaining full time employment
- Learning essential communication techniques
- Breaking out of comfort zones and finding inspiration and motivation in everyday life
- Preparing and working to a budget
- See overleaf for a complete list of packs

Learn new skills in just 25 hours, which is ideal for Stream 1 job seekers

Your job seekers will learn a multitude of essential skills that will boost their efforts to land employment. And it only takes 25 hours. That's a small amount of time to make such a big difference. You even get to choose from five different packs to ensure they receive the one that's right for them.

Who is this suitable for?

- Stream 1 job seekers
- General activity engagement for Stream 2, 3 and 4 job seekers
- General skill gap development for Stream 2, 3 and 4 job seekers

Activity packs available

Essential Life Skills

Essential Life Skills hones in on the skill set that the student will apply to everyday life. It covers finding inspiration in the world around them, developing motivational triggers and learning how to break out of their comfort zone.

Effective Financial Basics

Effective Financial Basics has been designed to take the student through the process of exercising their brain to ensure that they are ready to digest basic financial principles, including planning and working within a budget and gaining knowledge of everyday financial matters.

Effective Sales Basics

The content in this pack will arm the student with essential sales practices, top sales hints and tips, and give them more confidence in crucial job interviews. We give them the skills and coach them to confidently step out of their comfort zone and into a job in sales.

Effective Work Preparation

If you have students that you feel are ready to make the step into the workplace but are worried about them sticking it out once they are there, we can help them to understand basic practices and expectations that will help them deal with everyday situations in the workplace.

Guided Job Search and Profile Preparation

Our Guided Job Search and Profile Preparation Activity Pack walks students through every step of the job hunting process – from learning about fantastic web tools like Google Drive, email programs and etiquette to developing job hunt habits and managing the job application process.
